Good afternoon Birmingham area freight stakeholders,

The Regional Planning Commission of Greater Birmingham (RPCGB), on behalf of the Birmingham Metropolitan Planning Organization (MPO), is developing the update to its long range Regional Transportation Plan for the Birmingham region.

An important element of the plan is the identification of ways to improve the movement of freight and goods in the region. We would appreciate if you take a few minutes to respond to this quick 4-question survey. Your responses are important to us and will be used to make sure that recommended improvements best suit the needs of users of the freight system.
