

RPC Initiatives

To help improve the air quality in Alabama the Regional Planning	00:00:05
Commission has two initiatives: CommuteSmart and Alabama Partners for	
Clean Air. CommuteSmart helps alleviate traffic congestion and reduces	00:00:13
air pollution in Jefferson and Shelby Counties by encouraging the	
reduction of single occupancy vehicles. For those commuting to work,	00:00:22
you can earn incentives by carpooling, van pooling, bicycling, walking,	
teleworking, and taking public transit. There is a ride matching system to	00:00:32
help you find a carpool partner and an emergency ride home incentives	
so you will never be stuck at work. The Alabama Partners for Clean Air	00:00:39
(APCA) Partners with other organizations to educate the public about air	
quality issues. APCA works to minimize the economic impact on existing	00:00:47
businesses and support economic growth through raising awareness	
about individual choices, such as travel behavior, best times to refuel	
your car or mow your lawn. Find out more by going to comutsmart dot org	00:01:00
or Alabamacleanair dot org.
